

In order to be able to open the file in word that is attached to the assignments so that it can be edited, it needs to be downloaded first.

This can be done in a couple of ways, but the easiest is to click on the three dots that appear to the right of the box containing the file name and then click on the download option. You can see an option in that menu for opening in Word but that is when you get the request for a sign in.

Lesson 4-The Bear and the Piano English

POINTS
No points

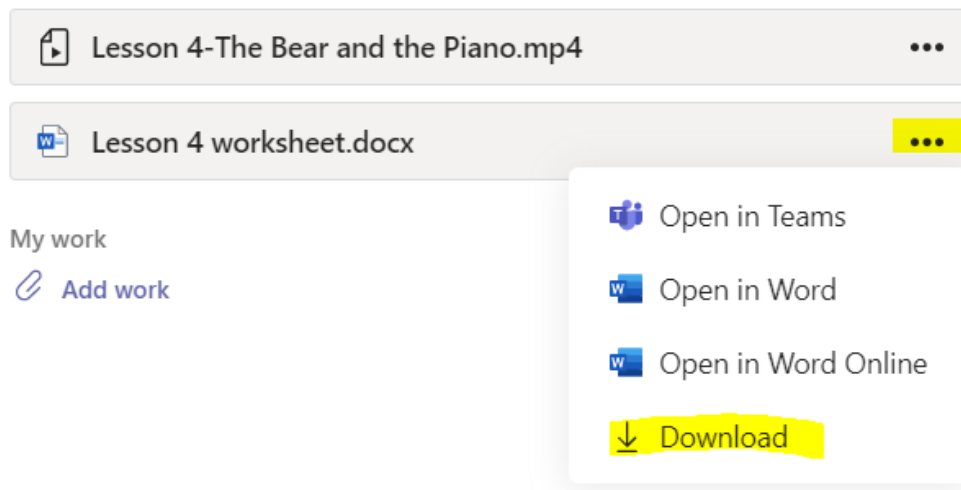

Due 11 January 2021 23:59

Instructions

Watch video by Miss Coggins.

Complete activity using worksheet, or video, or drawing and labelling.

Reference materials

Lesson 4-The Bear and the Piano.mp4

Lesson 4 worksheet.docx

My work

 Add work

- Open in Teams
- Open in Word
- Open in Word Online
- Download

Once downloaded to your computer you can then open it in Word as normal, edit, save and then upload when completed.

If you double click on the file in the first screen it will open up in Teams where you can use this screen as a text book and write the answers down separately or you can download it from there by clicking on the three dots to the right of the screen and selecting download.
